Waste Management Ltd

Environmental Policy

Our commitments:

P Lee Waste Management Ltd is committed to reducing environmental impact through responsible practices, efficient resource use, pollution prevention, and continuous improvement of environmental performance, while also adhering to relevant legislation.

Our Environmental policy is to respect the environment and the adopt an environmentally responsible attitude in the operations of business activities.

Our policy shall be focused on the following key principles:

- **Environmental Legislation** – Comply with current environmental legislation, regulations and codes of practice.
- **Environmental Management** - Implemented a documented environmental management system. Set environmental Objectives and we monitor performance through auditing to enable continual improvement.
- **Waste Management:**
Address waste reduction, reuse, and recycling, aligning with the waste hierarchy principles.
- **Pollution Prevention:**
Commit to preventing pollution in all forms and managing operations to minimise environmental risks.
- **Communication** - Promote awareness to employees of the importance of environmental issues and the environmental impact of the business activities.
- **Resources and Materials** – Ensure resources and materials and manage their use efficiently, through waste minimisation and by encouraging the use of recycled materials, where appropriate.

- **Operation of the Business** - Operate the business efficiently, whilst considering the impact on the environmental & social values.
- **Net Zero:** Commit to achieving Net Zero emissions by 2030, and actively take steps to reduce emissions.

Our aim is to satisfy customer requirements by providing environmental services for industrial and commercial oil users & oil related activities.

A high value will be placed on the prevention of pollution to the environment.

The environmental impact of significant changes to equipment or processes is assessed as part of the approval process.

This policy will be reviewed annually and updated as needed.

Implementation of this policy will be overseen by the designated Director.

Progress towards Environmental goals will be monitored and reported regularly.

Signed:
